Questionnaire Response

Please describe how you meet the following requirements/criteria by considering all solutions and packages that you currently sell as new. Fill in each response so we can better understand the full scope of your service as it relates to MACH. Yes and no answers will not be sufficient and the application will be returned.

Please explain in detail, how your offering(s) enables a MACH architecture?	
Do you enable at least three enterprise-grade* solutions or clients using MACH technology? Please name them.	
Does each product have their own datastore?	
Do you have a minimum of five MACH ISV partners with at least \$10m in annual revenue using MACH compliant product(s)? Please name the five partners	
Are your APIs built internally first, then implementation happens?	
Do you have multi-tenant native SaaS (single instance of application can service many different users)?	
Please confirm that there are no platform upgrades that customers have to apply, and your product isn't versioned?	
Do you have live projects with at least 2 other MACH ISV member companies? Please describe which other ISVs are part of that project and name the customers.	
Please provide examples that demonstrate creation and promotion of MACH thought leadership/ composable/ headless content that further advance the category. (share link to websites, landing pages or campaigns)
