

MACH ISV Member Application Form

For Standard and Large membership level applications only. The startup application form will be provided by invitation only by the MACH Alliance Board.

MACH Tech Vendors represent new, best-of-breed technology platforms. They work with a number of other vendors in the MACH space and their customers are both international and enterprise level.*

If this is you, then you are in the right place and please continue with your application. If you are not sure if this is you then please check our FAQs on our website for the criteria.

*Enterprise: - At least \$100M in annual revenue - Deployed MACH compliant product(s) globally (minimum two regions)

New members need an internal C-Level or above sponsor for this application

Company Name		Application Contact Name	
Phone Number		Email Address	
C level sponsor name + title		C level Sponsor email	
Website		Date	
Industry/Service		Where did you hear about MACH Alliance	

Questionnaire Response

Please describe how you meet the following requirements/criteria by considering all solutions and packages that you currently sell as new. Fill in each response so we can better understand the full scope of your service as it relates to MACH. Yes and no answers will not be sufficient and the application will be returned.

For legacy products, additional criteria applied to those companies who have made a transition from legacy to MACH can be [seen here](#).

Do you have at least three different microservices that each have their own domain? (please name them)	
--	--

ALLIANCE

Can you confirm that your entire company product(s) offering/ portfolio is 100% MACH compliant? Please see the additional terms on our website to see if you comply.	
Does each product have their own datastore?	
Do your applications communicate with events or through API calls?	
Are you able to release each application independently?	
Is the only means of accessing functionality through APIs? (Must have 100% API coverage)	
Are your customer-facing APIs REST and/ or GraphQL?	
Are your APIs built internally first, then implementation happens?	
Do you have multi-tenant native SaaS (single instance of application can service many different users)?	
Please confirm that there no platform upgrades that customers have to apply and that your product isn't versioned?	
Do you have live projects with at least 3 other MACH ISV member companies? Please describe which other ISVs are part of that project and name the customers. (Ideally enterprise* grade)	
Please provide examples that demonstrate creation and promotion of MACH thought leadership/ composable/ headless content that further advance the category. (share link to websites, landing pages or campaigns)	
<i>Please provide three public enterprise* MACH references by name (Please provide per reference a high-level architecture diagram, stating which solutions and infrastructure is used).</i>	
1.	
2.	
3.	
Do you have at least 15 customers, each generating more	

ALLIANCE

than \$100M in annual revenue using MACH compliant product(s)?
